Independent Auditor's Report

To His Excellency the Most Reverend Alberto Rojas
The Chancery Office of The Roman Catholic Bishop of San Bernardino, a Corporation Sole
San Bernardino, California

Report on the Financial Statements

We have audited the accompanying financial statements of The Chancery Office of The Roman Catholic Bishop of San Bernardino (the Diocese) (a Corporation Sole), which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Diocese's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Diocese's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Chancery Office of The Roman Catholic Bishop of San Bernardino as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Nature of Organization and Summary of Significant Accounting Policies

Organization

The Roman Catholic Bishop of San Bernardino, also known as the Diocese of San Bernardino (the Diocese), is a nonprofit corporation established under the laws of the State of California, and operates as a religious organization. The Diocese is exempt from Federal and State income tax under provisions of Section 501(c) of the Internal Revenue Code as a member of group exemption number 928 and Section 23701d of the California Revenue and Taxation Code as a religious organization. The primary purpose of the accounting and reporting of financial information is for resources received and applied rather than the determination of net income.

The Chancery Office of The Roman Catholic Bishop (RCB) of San Bernardino, a Corporation Sole, is supported primarily through assessments to parishes under the direction of the Bishop and contributions.

Financial Statement Presentation

The financial statements have been prepared on the accrual basis of accounting in accordance with Accounting Principles and Reporting Practices for Churches and Church-Related Organizations, adopted by the National Conferences of Catholic Bishops, and in accordance with accounting principles generally accepted in the United States of America.

The accompanying financial statements include the assets, liabilities, and operations of departments for which the Chancery Office, also called the Diocesan Pastoral Center (DPC or Diocese) of The Roman Catholic Bishop of San Bernardino, maintains direct operational control. The financial statements do not include the assets, liabilities, and operations of the parishes or any other affiliated organization under the jurisdiction of the Bishop, except for transactions with the DPC as reflected in the records of the DPC.

Net Asset Categories

The accompanying financial statements present information regarding the Diocese's financial position and results of activities according to the following net asset categories:

- Net assets without donor restrictions include all support that is not subject to donor-imposed restrictions. Property and equipment include all long-lived assets and renewal and replacement funds net of related liabilities.
- Net assets with donor restrictions include gifts and income subject to donor (or certain grantor) restrictions. Some donor-imposed (or grantor) restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. The Diocese reports contributions restricted by donors as increases in net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends, or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the

statements of activities as net assets released from restrictions. It is also the Diocese's policy to release the restrictions on gifts of cash or other assets received for the acquisitions of long-lived assets when the long-lived assets are placed into service.

Revenue Recognition

In May 2014, the FASB issued guidance (Accounting Standards Codification [ASC] 606, *Revenue from Contracts with Customers*) which provides a five-step analysis of contracts to determine when and how revenue is recognized and replaces most existing revenue recognition guidance in U.S. generally accepted accounting principles. The core principle of the new guidance is that an entity should recognize revenue to reflect the transfer of goods and services to customers in an amount equal to the consideration the entity receives or expects to receive. The Diocese adopted ASC 606 with a date of the initial application of July 1, 2020, using the full-retrospective method.

As part of the adoption of ASC 606, the Diocese elected to use the following transition practical expedients: (1) revenue from contracts which begin and end in the same fiscal year has not been restated; (2) hindsight was used when determining the transaction price for contracts that include variable consideration, rather than estimating variable consideration amounts in the comparative reporting period; (3) the amount of transaction price allocated to unsatisfied performance obligations and when those amounts are expected to be recognized, for the reporting periods prior to the date of initial application of the guidance, have not been disclosed; and (4) all contract modifications that occurred prior to the date of initial application when identifying the satisfied and unsatisfied performance obligations, determining the transaction price, and allocating the transaction price have been reflected in the aggregate.

Parish assessments are recognized and recorded as unrestricted revenues in the year the assessments are levied to the parishes. Other Diocesan revenue sources include insurance premiums and fees for other services, which are recognized and recorded as unrestricted revenues in the year in which performance obligations are satisfied, typically when the activity or services are rendered.

Contributions, including unconditional promises to give and the annual Diocesan Development Fund subsidy, are recognized as revenues in the period the contribution or unconditional promise is received. Contributions of assets other than cash are recorded at their estimated fair value at the time of the gift. Contributions are reported as net assets with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are released from restrictions. When a donor's restriction is met within the same year as the donation, the donation is reported as net assets without donor restrictions.

Revenues from grants and contracts are reported as increases in unrestricted net assets as allowable expenditures under such agreements are incurred.

The adoption of ASC 606 did not have a significant impact on the Diocese's statement of financial position, results of its activities, or cash flows. The Diocese's revenue arrangements generally consist of a single performance obligation to transfer services. There are no significant contract assets, accounts receivable, or contract liabilities associated with these revenue streams. Based on the Diocese's evaluation of its contracts with customers, the timing and amount of revenue recognized previously is consistent with how revenue is recognized under the new standard. No changes were required to previously reported revenues as a result of the adoption.

Accounts Receivable

Accounts receivable represent amounts due from various parishes and other institutions within the Diocese for parish assessments, services fees, insurance, property taxes, and other fees, which are believed to be fully collectible unless an entity experiences a material adverse change in its ability to meet its financial obligations to the Diocese. An allowance for doubtful accounts, which as of June 30, 2021 and 2020, amounted to \$978,030 and \$1,041,537, respectively, has been calculated based on an aging of outstanding invoices.

Investment Return

Investment income and realized and unrealized gains and losses are recorded and reported as increases or decreases to the appropriate net asset category.

Expense Recognition

Expenses are generally reported as decreases in net assets without donor restrictions. The financial statements present expenses by functional classification in accordance with the overall mission of the Diocese.

Allocation of Certain Expenses

The statement of activities presents expenses by functional classification. Depreciation and the cost of operation and maintenance of facilities are allocated to functional categories based on building square footage dedicated to that specific function.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates, and those differences could be material.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Diocese considers all highly liquid investments available for current use with an initial maturity of three months or less to be cash.

Concentration of Credit Risk

The Diocese maintains cash and investment balances at banks in excess of Federal Deposit of Insurance Corporation (FDIC) and Securities Investor Protection Corporation (SIPC) limits. Deposit concentration risk is managed by placing cash and investment balances with financial institutions believed by the Diocese to be creditworthy. Management believes credit risk is limited.

Investments

Where permitted by gift agreement and/or applicable Diocesan policies, the Diocese pools investments for management purposes. The remainder of investments is managed as separate investments. Cash equivalents are resources invested in money market funds, including any such investments held by external investment managers. Marketable securities are reported at fair market value, except for real estate investments, trust deed loans, and other miscellaneous assets, which are stated at cost.

The cost of securities sold is determined by the average cost method and is used to compute realized gains and losses. Unrealized gains and losses reflect the changes in the market values of investments from the prior year. Investment income and gains and losses on investments are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation. The date of record for investments is the trade date.

Investments in marketable securities with readily determinable fair values and all investments in debt securities are valued at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets on the statement of activities. Realized gains and losses are also recorded on the statement of activities.

Endowment Funds

The Diocese has interpreted the California Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the date of the donor-restricted endowment funds, unless there are explicit donor stipulations to the contrary. At June 30, 2021 and 2020, there were no such donor stipulations. As a result of this interpretation, the Diocese retains in perpetuity (a) the original value of initial and subsequent gift amounts donated to the Endowment and (b) any accumulations to the Endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure in a manner consistent with the standard of prudence prescribed by UPMIFA. The following factors are considered in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The mission of the Diocese and the purpose of the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and/or deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the Diocese
7. The investment policy of the Diocese

Management of Catholic Foundation Pooled Investment Funds

The investment objectives of the Catholic Foundation endowment funds is to grow the funds over the long run and have earnings through a combination of investment income and capital appreciation, a rate of return (time-weighted total return) in excess of the benchmarks established for the medium (three years) and long-term (five years).

The endowment fund has a spending policy of appropriating 4.25% of the average of the three previous years ending fair market value.

Fair Value Measurement of Investment Assets

Certain assets are reported at fair value in the consolidated financial statements. Fair value is the price that would be received to sell an asset in an orderly transaction in the principal, or most advantageous, market at the measurement date under current market conditions regardless of whether that price is directly observable or estimated using another valuation technique. Inputs used to determine fair value refer broadly to the assumptions that market participants would use in pricing the asset, including assumptions about risk. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the Diocese's own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available. A three-tier hierarchy categorizes the inputs as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability, and market-corroborated inputs.

Level 3 - Unobservable inputs for the asset or liability. In these situations, inputs are developed using the best information available in the circumstances.

In some cases, the inputs used to measure the fair value of an asset might be categorized within different levels of the fair value hierarchy. In those cases, the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. Assessing the significance of a particular input to entire measurement requires judgment, taking into account factors specific to the asset. The categorization of an asset within the hierarchy is based upon the pricing transparency of the asset and does not necessarily correspond to the Diocese's assessment of the quality, risk, or liquidity profile of the asset or liability.

Property and Equipment

Property and equipment are recorded at cost for purchased assets and appraised fair value for contributed assets. The assets are depreciated over their useful lives. The Diocese capitalizes land at the purchase cost or donated fair value, buildings at the purchase cost or construction cost. Capitalization for other assets includes equipment with an initial value in excess of \$5,000 and building, leasehold or land improvements with an initial value in excess of \$50,000; anything less is expensed in the current period. The straight-line method of depreciation is used for all depreciable assets. The estimated useful lives range from seven years to thirty years.

The Diocese reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating results, trends and prospects, the way the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment, there was no impairment at June 30, 2021 and 2020.

Related Parties

Substantial portions of the Diocesan transactions are with affiliated parishes and other religious organizations.

New Accounting Pronouncements

In February 2016, FASB issued ASU 2016-02, *Leases* (ASU 2016-02). ASU 2016-02 requires a lessee to recognize a lease asset representing its right to use the underlying asset for the lease term, and a lease liability for the payments to be made to lessor, on its statement of financial position for all operating leases greater than 12 months. ASU 2016-02 will be effective for fiscal years beginning after December 15, 2021, and interim periods within fiscal years beginning after December 15, 2022. Although the full impact of this update on the Diocese's financial statements has not yet been determined, the future adoption of this guidance will require the Diocese to record assets and liabilities on its statement of financial position relating to facility and other leases currently being accounted for as operating leases.

Notes to Financial Statements

June 30, 2021 and 2020

Note 2 - Liquidity and Availability

Financial assets available for general expenditure, that is, without donor or other restrictions limiting their use, within one year of the statement of financial position sheet date, comprise the following:

	2021	2020
Cash and cash equivalents	\$ 1,375,952	\$ 3,645,032
Investments	47,919,733	20,926,053

Notes receivable	150,708	139,494
	\$ 50,710,897	\$ 26,518,799

The Diocese uses these sources to meet its ongoing obligations with respect to general expenditures, liabilities and other obligations as they become due. Cash in excess of daily requirements is invested in various short-term investments with maturities designed to meet obligations as they come due.

Note 3 - Investments

The following schedule summarizes the Diocese's investment returns for the year ended June 30, 2021 and 2020:

Depreciation expense for the years ended June 30, 2021 and 2020 was \$776,006 and \$820,969, respectively.

Building assets with depreciated value of \$217,063 are pledged as collateral for the notes payable referenced in Note 8.

Note 8 - Notes Payable

Notes payable at June 30, 2021 and 2020 are as follows:

	2021	2020
Citizens Business Bank note payable, interest rate of 3.50%, due September 6, 2026	\$ 2,530,305	\$ 2,968,188

Total notes payable	\$ 4,239,188	\$ 5,173,971

The Diocese has notes payable due to legally separate but affiliated organizations. As of June 30, 2021, the outstanding balance owed to Caritas Telecommunications Corporation (Caritas) and to the Cemetery Corporation was paid in full. The Diocese makes monthly principal and interest payments on the note from the Cemetery Corporation and one of the notes from Caritas. The annual debt service on the remaining note from Caritas is forgiven on an annual basis upon approval from the Caritas Board of Directors.

Interest expense was \$163,829 and \$199,966 for the years ended June 30, 2021 and 2020, respectively.

Note 9 - Paycheck Protection Program (PPP) Loan

The Diocese applied for and was granted an \$1,356,301 loan under the Paycheck Protection Program administered by a US Small Business Administration (SBA) approved lender. The loan was uncollateralized and fully guaranteed by the Federal government. The Diocese has elected to account for the funding as a conditional contribution by applying ASC 958-605, *Not-for-Profit – Revenue Recognition*. The Diocese initially recorded the loan as a refundable advance and subsequently recognized contribution revenue in accordance with guidance for conditional contributions, that is, once the measurable performance or other barrier and right of return of the PPP loan no longer existed. The Diocese has recognized full forgiveness of the loan in the amount of \$1,371,559 as contribution revenue for the year ended June 30, 2021. This amount includes \$15,258 in accrued interest.

Note 10 - Funds Held in Trust for Others

Funds held in trust for others totaled \$36,786,819 and \$28,032,911 at June 30, 2021 and 2020, respectively. These amounts represent other parish and school funds held in trust by the Diocese.

Note 11 - Pension Plans

Pension Plans for Priests

The Diocese adopted a pension plan for priests in conjunction with the Diocese of San Diego. All priests under the authority of the Diocese shall be eligible to participate in the plan provided they make the required contributions. Priest contributions are \$33.33 per month, payable in semi-annual or annual payments.

Pension expense for the years ended June 30, 2021 and 2020, was \$726,832 and \$697,686, respectively, allocable to the Diocese of San Bernardino. These amounts include normal cost plus amortization of unfunded past service cost and reflect the required contribution for the plan year ended June 30, 2021. The plan uses a projected method that takes into account future service and, therefore, produces a measure of plan liabilities that exceed plan assets. This amount will be funded over the entire working lifetime of the current group of priests in the valuation.

Notes to Financial Statements

June 30, 2021 and 2020

The following are weighted-average assumptions used to determine net periodic pension cost for the years ended June 30, 2021 and 2020:

	2021	2020
Discount rate	5.50%	5.50%
Rate of compensation increase	0.00%	0.00%
Expected long-term rate of return on plan assets	6.50%	6.50%

The Diocese's expected long-term rate of return on plan assets assumption was derived from an analysis conducted by the Diocese's actuaries. The analysis included a review of the asset allocation strategy, anticipated future long-term performance of individual asset classes, and risks and correlations for each of the asset classes that comprise the asset allocation. While the analysis gives appropriate consideration to recent performance and historical returns, the assumption is primarily a long-term prospective rate.

The following table sets forth by level, within the fair value hierarchy, the pension plan's assets at fair value as of June 30, 2021 and 2020:

June 30, 2021	Total	Level 1	Level 2	Level 3
Cash and cash equivalents	\$ 438,947	\$ 438,947	\$ -	\$ -

Total assets at fair value	<u><u>\$ 9,838,536</u></u>	<u><u>\$ 9,838,536</u></u>	<u><u>\$ -</u></u>	<u><u>\$ -</u></u>

The pension benefit plan assets are carried at fair value in accordance with the fair value hierarchy as discussed in Note 4.

In setting investment policies and strategies, the ability of the selected investment allocation to fund the pension plan liabilities effectively, meet the long-term return target, and align the selected allocation with the risk tolerance of the plan's fiduciaries was taken into account. The strategic allocation has reduced exposure to market risk and increased allocation to asset classes which are not highly correlated, as well as asset classes where management has historically generated excess returns, and places greater emphasis on manager skills to produce excess return while employing various risk mitigation strategies to reduce volatility.

The Chancery Office of The Roman Catholic Bishop of San Bernardino

Notes to Financial Statements

June 30, 2021 and 2020

The Diocese expects to contribute \$681,782 to the pension plan in the 2022 fiscal year.

The following estimated future benefit payments, which reflect expected future service, as appropriate, are expected to be paid in following five fiscal years:

2022	\$	1,189,636
2023		1,138,462
2024		1,119,388
2025		1,085,924
2026		1,053,713

Restated Pension Plan for Lay Employees

The Diocese of San Bernardino maintains a defined benefit plan for lay employees. The plan was amended and restated on September 1, 2009. All regular and full-time employees of the Diocese shall be eligible to participate in the plan provided they agree to make the required contributions under the plan. The plan is funded in part by employee contributions of two percent of gross wages. The Diocese contributes 7.5% of payroll.

Benefits under the plan are determined based on a formula which takes into account years of service and the monthly average of total compensation paid during the five (5) consecutive years of participation when compensation was the highest. Effective with the plan year September 1, 2011, the benefit formula has been changed to take into account years of service and the monthly average total compensation paid during the ten (10) consecutive years of participation when compensation was the highest. Normal retirement is the first day of the month upon attaining age 65. Each year, an actuarial valuation is performed to determine the benefit security of the participants and the sufficiency of the Diocesan contributions on an ongoing plan basis.

For the plan year ended August 31, 2021, there are 1,960 total lay plan participants; covered payroll for 782 active participants was \$28,448,448.

Note 18 - Commitments and Contingencies

Litigation

The Diocese is involved in lawsuits arising in the ordinary course of its operations. In the opinion of management, the ultimate resolution of these lawsuits is not expected to have a material effect on the Diocese's financial position or change in net assets.

Note 19 - Subsequent Events

The Diocese's management has evaluated events or transactions that may occur for potential recognition or disclosure in the financial statements from the balance sheet date through December 22, 2021, which is the date the financial statements were available to be issued.
